

GUEST ADVISORY AND ALLERGEN NOTICES

AS OF JULY 2026

Shared Kitchen Risk: Our kitchen handles all major food allergens (wheat/gluten, milk, eggs, soy, fish, shellfish, tree nuts, peanuts, and sesame).

We cannot guarantee any item is 100% allergen-free due to shared prep and cooking areas.

Shared Fryer Alert: Items prepared by frying (such as French Fries) are cooked in a shared deep fryer alongside wheat-breaded items. Cross-contact of gluten/wheat in the frying oil will occur.

Shared Griddle & Soy Notice: Proteins, breakfast items, and grilled sandwiches are prepared on a shared flat-top griddle using commercial cooking oil and pan sprays containing soy or dairy derivatives.

Tree Nut Alert: Our Carrot Raisin Nut Loaf and Turkey Royale Salad contain real walnuts. Take-home muffin packs are manufactured in a facility that handles tree nuts and peanuts.

Please Inform Us: Before placing your order, please always notify your server or the manager on duty if a member of your party has a food allergy, celiac disease, or a severe dietary restriction.

Notice: The allergen and dietary designations contained in this guide are strictly proprietary and configured exclusively for the specialized ingredient specifications, regional supply chains, and kitchen preparation standards of Mimi's Cafe. This information is not applicable to any other restaurant concept or brand.
